

Wireless Pressure Mats

VISITOR CHIMES

BENEFITS

- LOW COST
- COMPACT AND EASY TO SETUP
- LARGE MAT SIZE (56 x 35cm)
- LONG WIRELESS RANGE (100m)
- SAFE, NO ELECTRICAL WIRING
- CHOICE OF CHIME TYPE RECEIVERS
- COVER LARGER AREA WITH EXTRA MATS CONNECTED TOGETHER
- MULTIPLE CHIME RECEIVERS
- UNIQUE TRANSMISSION CHANNEL FOR EACH PRESSURE MAT

WIRELESS PRESSURE MATS THAT WORK FOR YOUR BUSINESS

MAT-ON-GUARD is an ingenious way to help you announce visitors entering your shop or property.

By placing the Pressure Mat under a mat at your door entrance you will always receive an audible chime warning when a person is entering through your door.

The small transmitter connected to the pressure mat uses a small long lasting battery (included), while the portable receiver requires two AA size batteries.

MAT-ON-GUARD is operating wirelessly between the pressure mat and the receiver chime unit, thus eliminating the need for complicated wiring.

Each pressure mat is allocated a unique transmission Channel allowing for the operation of multiple pressure mats in the same area and without interference with each other.
